The detailed information is the following:

- number of positions (with and without scholarship) and their research topics;
- admission requirements;
- selection mode;
- evaluation criteria.

By and no later than the expiry date of the Call, updates are possible relating to:

- and/or financed after the publication of this selection;
- list of research topics and topics linked to specific research projects.

Such updates will be published exclusively on the Doctoral School website at [Call webpage](#).

The dates and places where to carry out the tests, as well as any changes, will be published on the Doctoral School website at the [Call webpage](#) by **20th December 2024**. This publication has the value of an official notification for all legal purposes, therefore the candidates will not receive any personal communication regarding the summons for the tests.

It is possible to carry out the oral exam via videoconference, subject to authorization by the Examination Board. To this end, the candidate must submit a reasoned request when completing the application pursuant to art. 5 or, in the event of impediments occurring after completing the application, with a reasoned request to be sent via email to the Examination Board whose e-mail addresses will be provided on the website of the Doctoral School at the [Call webpage](#).

For identification purposes and under penalty of exclusion from the selection procedure, each candidate is required to identify him/herself before the interview begins, showing the same identity document already sent in copy as an attachment to the application.

Failure to connect, the unavailability of the candidate on the established day or time, or failure to show a valid identification document are grounds for exclusion from the selection procedure. These reasons for exclusion do not operate if the candidate, in possession of a valid identification document, arrives on the day set for the interview in order to take the oral test in person.

Scholarships are assigned according to the ranking lists (Art. 8) to be published on the website of the Doctoral School [Call webpage](#) within 14th February 2025.

For positions reserved for students selected as part of specific international mobility programmes or called as part of specific agreements in which the University of Turin participates, enrollment in the Programme will take place following the opinion of the PhD Board.

ART. 3 - ADMISSION REQUIREMENTS

Applicants of any citizenship and age can respond to this Call for Admission, provided that they hold one of the following requirements:

1. A degree awarded by an Italian University prior to Ministerial Decree 509/99, i.e. laurea vecchio ordinamento (L);
2. A second level degree awarded by an Italian University (pursuant to Ministerial Decrees 509/99 and 270/04, i.e. laurea magistrale (LM) or laurea specialistica (LS));
3. Second cycle academic qualification issued by the institutions belonging to the AFAM (Higher Artistic and Musical Education) sector suitable for access to PhD studies;
4. International qualification, i.e. obtained abroad, comparable to an Italian second cycle EHEA (European Higher Education Area)/level 7 E.Q.F. (European Qualification Framework) academic qualification which is recognized as suitable for access to the PhD studies in the country of origin and is issued by an officially recognized academic institution;
5. Bi-national Master's Degree/second cycle degree (double/multiple degree or joint degree) suitable for access to PhD studies.

In this case applicants may choose which degree to declare for the purpose of the application or may apply with the joint degree.

Applicants whose degrees will be awarded after the call deadline may apply under the condition that their qualification is obtained **within the 28th of February 2025**. **It must be noted that the degree must be officially assigned and the date appearing on the degree issued by the University is to be considered.** Please note that the date of the award of the degree does not necessarily coincide with the date of completion of any requirements set by one's university which are preparatory to the conclusion of the study path (e.g. completion of exams; passing of a final test; submission of a thesis; defence of a thesis, etc.).

Should they not obtain the qualification within the established deadline, they will not be admitted to the PhD Programme, in case a position was offered.

Applicants who apply under the condition of receiving their qualification from an Italian institution, shall submit a self-declaration with the list of exams passed (all the exams in their “corso di laurea magistrale” and “corso di laurea triennale” or “corso di laurea a ciclo unico”), with grades, CFUs (credits) and weighted average.

Applicants who already hold a PhD degree, or had a PhD scholarship in Italy (even if partial) cannot benefit from a scholarship.

Only requirements and qualifications acquired within the Call for Admission deadline may be evaluated.

ART. 4 - INTERNATIONAL QUALIFICATIONS

The international university qualification, in order to be considered as such, must be comparable to an Italian Master Degree, i.e. a second cycle academic qualification (EHEA, or pursuant to the 1999 Bologna Process) or 7 E.Q.F. level **that gives access to the PhD studies in the country that awarded it.**

It must be noted that the qualification which is taken account in order to be admitted to the selections as an international candidate is exclusively the second cycle degree EHEA/level 7 E.Q.F.

For the sole purpose of admission to this selection process, the Examination Board (Art. 7) will carry out a comparative assessment of qualifications in order to award the recognition of eligibility of international qualifications.

The assessment of the suitability of the international qualification is carried out on the basis of the documentation attached to the application for admission to this selection and, in the event that the documentation presented does not provide sufficient elements for the assessment, the Examination Board has the right to exclude these applications.

At the end of the selection, the PhD Office will carry out further checks on the authenticity and comparability of the international qualifications presented and, if the qualification presented is not authentic or valid for enrollment purposes, it reserves the right to exclude the candidates admitted.

Applicants who hold international qualifications must therefore upload into the online application procedure the following documents:

1. Diploma or certificate of first cycle degree (6 E.Q.F. level) and second cycle (7 E.Q.F. level) or single cycle degree - Bachelor's Degree and Master's Degree - which gives access to PhD studies in the country of origin, issued by an officially recognized academic institution, with relative final grade (where available);
2. Transcripts of records of first and second cycle Degrees with complete grading;
3. Comparability and Verification Certificates issued by CIMEA (for qualifications issued in a non-EU country) or Diploma Supplement or, alternatively, the “Dichiarazione di valore in loco”;

For further details on the documentation to be presented depending on the country that issued the qualification, see the document produced by [CIMEA](#) (under the heading “Titoli finali della formazione superiore”).

Failing to submit the documents of points 1) and 2) of this article implies the exclusion from the selection procedure.

UNIVERSITÀ

This publication has the value of an official notification for all legal purposes, therefore the candidates will not receive any personal communication regarding eligibility results.

Applicants who are holders or are applying for international protection and cannot submit the documents required in points 1) and 2) of this article shall contact the PhD office (dottorati@unito.it) within the call deadline and will start a dedicated assessment procedure.
