<p>Publications</p>	<p>2</p>	<p>max. 12</p>	<p>The following criteria will be observed for each publication (or manuscript already accepted for publication)</p>

UNIVERSITÀ DEGLI STUDI DI TORINO

			<p>relevant to one of the scientific-disciplinary areas of the doctoral program:</p> <ul style="list-style-type: none">- 1 point (up to a maximum of 3 points) for each conference communication or poster;- Up to 3 points for each national essay or article;- up to 6 points for each international volume or article
Reference letters		0	Not required
Research Project		max. 20	<p>The research project must be written in Italian or English (max 7,000 characters including spaces - excluding bibliography), selected among the titles indicated by the Doctoral Board and published on the University Portal. The project will be evaluated on the scientific value and originality, feasibility during the duration of the PhD program, the objectives, the scientific impact of the results.</p> <p>The research project must include:</p> <p>a) Title of the project in Italian and English summarizing the content of the proposal</p> <p>b) Abstract written in Italian and English (max 500 characters, including spaces in Italian + 500 in English, including spaces).</p> <p>It should briefly illustrate the aims and objectives of the project.</p> <p>c) State of the art (max. 1,000 characters, including spaces).</p> <p>It should summarize the state of the art with a literature review that identifies the most relevant references, with particular attention to</p>

UNIVERSITÀ DEGLI STUDI DI TORINO

			<p><i>the unanswered points and open questions that the project intends to address.</i></p> <p><i>d) Project aims (max 1,000 characters, including spaces)</i></p> <p><i>The section should define the general objective and specific objectives of the study you intend to propose in relation to the theoretical controversies or unresolved empirical questions as highlighted in the previous section.</i></p> <p><i>e) Research design (max 2,000 characters including spaces)</i></p> <p><i>This section should identify the empirical context and define the experimental design, illustrating the methodologies, and data collection and analysis procedures.</i></p> <p><i>f) Expected results (max 500 characters including spaces)</i></p> <p><i>It should outline expected outcomes and possible developments, consistent with the research questions and proposed objectives.</i></p> <p><i>g) Feasibility of the project and possible timeline (max 1,000 characters including spaces)</i></p> <p><i>It should indicate any resource that is considered necessary to carry out the project. The resources may concern skills and/or equipments, internal or external to the PhD program and the University of Turin. The applicant is asked to specify whether these resources are already available or need to be activated. Applicant should also indicate the timeframe for the realization of each phase of the project. The respect of ethical standards in carrying out the work should be indicated (where necessary).</i></p>
--	--	--	---

			<p><i>h) Innovative and critical elements (max 500 characters including spaces)</i></p> <p><i>The section should illustrate the reasons that make the project relevant and the elements of innovation. Limitations and potential critical points of the proposed study should also be outlined, both in relation to time and available resources.</i></p> <p><i>i) Bibliography</i></p> <p><i>The bibliography should contain from 10 to 20 titles.</i></p>
<i>Threshold to pass the interview</i>		<i>30</i>	
INTERVIEW		max. 50	<p><i>The interview will focus on CV, titles and publications submitted by the candidates, their scientific and cultural interests and the discussion of their research project. The interview will assess fluency in the foreign language chosen by the candidate (English/French/Spanish).</i></p>
<i>Threshold (to be qualified for PhD)</i>		<i>30</i>	

<p style="text-align: center;">Research topics PhD Programme in Psychological, Anthropological and Educational Sciences</p>

Psychological Sciences research titles

1) Memoria autobiografica ed emozioni / *Autobiographical memory and emotions*. (Referente scientifico: Prof. Carla Tinti)

2) Correlati neurali della percezione visiva consapevole e non consapevole / *neural correlates of conscious and non-conscious visual perception* (Referente scientifico: Prof. Marco Tamietto)

UNIVERSITÀ DEGLI STUDI DI TORINO

- 3) Analisi psicometrica delle traiettorie dei sintomi e della qualità della vita post Covid / *Psychometric Analysis of trajectories in symptoms and health related quality of life among Covid survivors* (Referente scientifico: Prof.ssa Rosalba Rosato)
- 4) La malattia cronica come sfida non normativa allo sviluppo nel ciclo di vita. Studio degli aspetti psicologici e sociali della sclerosi multipla in una prospettiva evolutiva / *Chronic disease as a non normative challenge to development in the life span. Study of psychological and social aspects of multiple sclerosis in a developmental perspective* (Referente scientifico: Dott.ssa Emanuela Calandri)
- 5) Pregiudizio e discriminazione: Scelto uno specifico ambito di applicazione, il/la candidato/a pianifichi un progetto di ricerca volto a prevedere pregiudizio e discriminazione in ottica psicosociale e/o a delinearne gli effetti / *Prejudice and discrimination: the candidate plans in a specific field a research project aimed to prevent prejudice in a psychosocial perspective and/or to clarify its consequences.* (Referente scientifico: Prof.ssa Cristina Mosso)
- 6) Le trasformazioni del lavoro, le conseguenze sul benessere e l'interfaccia lavoro-vita, tra richieste e risorse lavorative / *The work transformations and the consequences on well-being and work-life interface, between job-demands and resources* (Referente scientifico: Prof.ssa Chiara Ghislieri).
- 7) Prospettive teoriche ed empiriche innovative applicate alla psicopatologia e alla valutazione psicologica / *Innovative conceptual and empirical perspectives on psychopathology and psychological assessment* (Referente scientifico: Prof. Alessandro Zennaro)
- 8) psicopatologia e interventi psicologici per le persone affette da sclerosi multipla e per i loro familiari/ *psychopathology and psychological interventions for people with multiple sclerosis and their families.* (Referente scientifico: Prof. Lorys Castelli)
- 9) Modelli dinamici di scelta applicati alla Psicologia / *Choice dynamics models applied to Psychology* (Referente scientifico: Prof. Ugo Merlone)

Anthropological Sciences research titles

- 10) Antropologia del lavoro tra crisi dell'industria e industrie culturali / *The anthropology of work between industrial crisis and cultural industries* (Referente scientifico: Prof. Carlo Capello)
- 11) Etnografie della libertà in Africa: schiavitù, migrazioni, minoranze, diritti / *Ethnographies of freedom in Africa: slavery, migrations, minorities, rights* (Referente scientifico: Prof. Alessandro Gusman)
- 12) Antropologia pubblica nella crisi ambientale. Fattori di rischio, conflitti sociali e ricerca etnografica in territori contaminati dall'attività umana ed esposti a inquinamento industriale / *Public Anthropology in the Environmental Crisis. Risk factors, social conflicts and ethnographic research in areas contaminated by human activity and exposed to industrial pollution* (Referente scientifico: Prof. Andrea Filippo Ravenda)

UNIVERSITÀ DEGLI STUDI DI TORINO

13) Musei antropologici nel XXI secolo: processi di patrimonializzazione e trasformazione digitale / *Anthropology museums in the 21th century: cultural heritage processes and digital transformation* (Referente scientifico: Prof.ssa Cecilia Pennacini)

14) Svolta ontologica, svolta multispecie: relazioni uomo-animale e uomo-piante da un punto di vista etnografico / *Ontological and multispecies turn: human-animal and human-plant relations through an ethnographic lens* (Referente Scientifico: Prof.ssa Lia E. Zola)

Educational Sciences Project titles

15) Gioco e sport: prospettive pedagogiche per l'agire educativo / *Play and sport: pedagogical perspectives for educational action* (Referente scientifico: Prof.ssa Sara Nosari)

16) Una scuola aperta a tutti. La sfida dell'equità tra vecchie e nuove disuguaglianze / *A school for everyone. The challenge of equity facing old and new inequalities* (Referente scientifico: Prof.ssa Anna Granata)

17) La scuola nell'Italia democratica tra sperimentazioni dal basso e interventi normativi / *The school in democratic Italy between bottom-up experiments and regulatory actions* (Referente scientifico: prof.ssa Maria Cristina Morandini)

Additional research titles, special projects funded by the University of Torino or by external bodies.

Educational sciences

18) Università innovativa: insegnamento e apprendimento nell'era digitale / *Innovative university: teaching and learning in the digital era* (Referente scientifico: Prof.ssa Barbara Bruschi; research project linked to the scholarship funded within the initiative European Universities UNITA Universitas Montium)

Psychological sciences

19) Computazioni neurali alla base della lettura dell'intenzione / *Neural computations underlying intention reading* (Referente scientifico: Prof.ssa Cristina Becchio, Istituto Italiano di Tecnologia/IIT, research project linked to the scholarship funded by Istituto Italiano di Tecnologia-IIT)
